## 2<sup>nd</sup> Final Event

**Poland, Katowice, 30-31 January 2017**

Hosted by

**University of Silesia in Katowice (US)**

**Institute for Ecology of Industrial Areas (IETU)**

**Municipal Water Company of Sosnowiec (RPWiK)**

The EU project [ISS-EWATUS](#) has developed an Integrated Support System for Efficient Water Usage and Resource Management that includes a Decision Support module for EU water utilities at urban and household level, a social-media platform that promotes water-saving behavior and an adaptive pricing system. After three years of leading research, we cordially invite you to find out more about these new solutions and to see first-hand our results, along with the results of other “sister” projects that have been dealing with similar issues and have made important contributions in the “smart water” sector. The results of [ISS-EWATUS](#) and other [ICT4WATER](#) cluster projects will be presented during two days event through a mix of presentations and demonstrations on 30-31 January 2017 in Katowice, Poland.

We are pleased to announce that the Honorary Patronat over the event took Rector of the University of Silesia prof. dr hab. Andrzej Kowalczyk and Dean of the Faculty of Computer Science and Materials Science dr hab. Danuta Stróż.

1<sup>st</sup> day event (30.01.2017) will include various distinguished invited speakers presentations and technical presentations of our project and other cluster projects, where invited speakers will be presenting and moderating stimulating discussions with other water utilities, industry, stakeholders, authorities, NGOs, associations, academics, etc.

During 2<sup>nd</sup> day event (31.01.2017) poster session will be organized with final discussion, and then will take place optional excursion to Auschwitz-Birkenau.
